## **Innovation and Interdisciplinary Solutions for Underserved Areas**

Cheikh M. F. Kebe 2018-01-24 This book constitutes the refereed post-conference proceedings of the First International Conference on Innovation and Interdisciplinary Solutions for Underserved Areas, InterSol 2017, and the 6th Collogue National sur la Recherche en Informatique et ses Applications (CNRIA), held in Dakar, Senegal, in April 2017. The 15 papers presented at InterSol were selected from 76 submissions and are grouped thematically in science, energy and environment, education, innovation, and healthcare. The proceedings also contain 13 papers from the co-located 6th CNRIA (Collogue National sur la Recherche en Informatique et ses Applications) focusing on network architecture and security, software

engineering, data management, and signal processing.

## **Transformation Index BTI 2022**

Bertelsmann Stiftung 2022-02-22 Managing the peaceful transition of authoritarian states to democracy and a market-economic system represents a tremendous challenge. Whether it comes to reconstituting the coherency of the state following armed conflict, expanding participation rights and the rule of law in emerging democracies, overcoming corrupt structures, fighting poverty and inequality, or establishing clear rules for stable market-economic competition, the requirements are enormous, and the pressure on responsible leaders is intense. After all, the quality of governance makes an essential contribution to the

success or failure of transformation processes. Accordingly, the Bertelsmann Stiftung's Transformation Index (BTI) systematically places political decision-makers' steering capability at the heart of its analysis and, as a result, is the only index in the world that measures and compares the quality of governance with self-collected data. This is done in the firm conviction that the ongoing comparative study of transformation processes is invaluable for the successful design of reforms and holds enormous global potential to learn from different political strategies for steering change, even though diverse traditions, power configurations, resources and cultures necessarily make each transformation process unique. The BTI measures and compares transition processes in 137 transformation countries with data collected between 2019 and 2021, and establishes their global rating based on detailed country reports. Now in its tenth edition, it offers the opportunity to understand long-term trends and global developments through the analysis of time-series data. The spotlight on current developments is thus complemented by almost two decades of data that captures the most varied transformation processes and puts into perspective recent progress and setbacks on the way to democracy and a market economy.

Industrial Robots Isak Karabegović 2020 "Industrial Robots: Design, Applications and Technology is an essential reference source that explores the fundamentals of kinematics, dynamics and industrial robot control as well as a new generation of industrial robots, the collaborative robots or cobots. The tendency in Industry 4.0 towards the mass customisation of products,

shorter product cycles and quality demands has led to the introduction of collaborative robot's systems capable of learning and working hand-in-hand with humans. Collaborative robots in the industry target the enhancement of production efficiency by combining the best of human operators and the industrial robots' accuracy, speed and reliability. The advances in smart sensors, artificial intelligence, digital twin, cyber-physical systems and the adoption of exoskeletons in industrial applications have opened new possibilities for technological progress in manufacturing, which led to efficient and flexible factories. This requires individuals to be educated in trends that are now focused on the design, monitoring and control of smart production processes. Featuring coverage on a wide range of topics such as new trends in human-robot collaboration, advanced vision technology and artificial intelligence, as well as application of industry robots in metal and wood industry, this book is ideally designed for electrical engineers, mechanical engineers, manufacturers, supply chain managers, logistics specialists, investors, managers, policymakers, production scientists, researchers, academicians and students at the postgraduate level"--

Encyclopedia of Twentieth-Century Latin American and Caribbean Literature, 1900–2003 Daniel Balderston 2004-02-12 The Encyclopedia of Twentieth-Century Latin American and Caribbean Literature, 1900–2003 draws together entries on all aspects of literature including authors, critics, major works, magazines, genres, schools and movements in these regions from the beginning of the twentieth century to the present day. With more than 200

entries written by a team of international contributors, this Encyclopedia successfully covers the popular to the esoteric. The Encyclopedia is an invaluable reference resource for those studying Latin American and/or Caribbean literature as well as being of huge interest to those following Spanish or Portuguese language courses.

39 Ways to Save the Planet Tom Heap 2021-10-14 We got ourselves into this. Here's how we can get ourselves out. We know the problem: the amount of biodiversity loss, the scale of waste and pollution, the amount of greenhouse gas we pump into the air... it's unsustainable. We have to do something. And we are resourceful, adaptable and smart. We have already devised many ways to reduce climate change - some now proven, others encouraging and craving uptake. Each one is a solution to get behind. In 39 Ways to Save the Planet, Tom Heap reveals some of the real-world solutions to climate change that are happening around the world, right now. From tiny rice seeds and fossil fuel free steel to grazing elk and carbon-capturing seagrass meadows, each chapter reveals the energy and optimism in those tackling the fundamental problem of our age. Accompanying a major BBC Radio 4 series in collaboration with the Royal Geographical Society, 39 Ways to Save the Planet is a fascinating exploration of our attempt to build a better future, one solution at a time. A roadmap to global action on climate change, it will encourage you to add your own solutions to the list.

Freedom in the World 2015 Freedom House 2015-12-24 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 195 countries and fourteen territories are used by policymakers, the media, international corporations, civic activists, and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies,

nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

**William Kentrige** William Kentrige 2020-09 Explore William Kentrige's remarkable performance piece, The Head & The Load, and discover how music, dance, writing, and fine art are combined to tell the haunting story of Africans during WWI. For over thirty years, William Kentrige has been combining fine arts, performance, theatre, and opera to create dreamlike, political, and humanist works. His installations, films, and drawings often deal with the political situation in South

Africa, apartheid, and the consequences of colonialism. This book gives an in-depth examination of his performance piece The Head & The Load, which explores the role of Africa during World War I. Throughout the war, more than one million Africans carried provisions and military equipment in hazardous conditions for British, French, and German troops at minimal or no pay. William Kentrige tells the story of these African porters who ensured the success of the victors, but remain in the shadows. This history, rarely studied today, unfolds in a staged tableau combining music, dance, acting, screenings, and mechanized sculptures. The book includes photos and text from the performance, essays, and artworks created specifically by Kentrige to complement the play. Accompanied by an international cast of singers, actors, and dancers, and with music composed by Philip Miller, The Head & The Load is a powerful and multifaceted work that reconsiders colonial history and its repercussions in today's world.

**Kindred** Octavia E. Butler 2004-02-01 The visionary author's masterpiece pulls us—along with her Black female hero—through time to face the horrors of slavery and explore the impacts of racism, sexism, and white supremacy then and now. Dana, a modern black woman, is celebrating her twenty-sixth birthday with her new husband when she is snatched abruptly from her home in California and transported to the antebellum South. Rufus, the white son of a plantation owner, is drowning, and Dana has been summoned to save him. Dana is drawn back repeatedly through time to the slave quarters, and each time the

stay grows longer, more arduous, and more dangerous until it is uncertain whether or not Dana's life will end, long before it has a chance to begin.

Methodology for Impact Assessment of Free Trade Agreements Michael G. Plummer 2011-02-01 This publication displays the menu for choice of available methods to evaluate the impact of Free Trade Agreements (FTAs). It caters mainly to policy makers from developing countries and aims to equip them with some economic knowledge and techniques that will enable them to conduct their own economic evaluation studies on existing or future FTAs, or to critically re-examine the results of impact assessment studies conducted by others, at the very least.

*Transformation Index BTI 2020* Bertelsmann Stiftung 2020-08-24 Wie gelingt der Wandel zu Demokratie und Marktwirtschaft? Antworten auf diese Frage gibt zum neunten Mal in Folge der "Transformation Index BTI 2020" der Bertelsmann Stiftung. Damit liegt erneut eine globale Analyse mit selbsterhobenen Daten zur Qualität von Demokratie, Marktwirtschaft und Regierungsführung in Entwicklungs- und Transformationsländern vor. Diese vergleichende Untersuchung ermöglicht es, aus verschiedenen politischen Strategien zur Steuerung des Wandels zu lernen, auch wenn unterschiedliche Traditionen, Machtkonfigurationen, Ressourcen und Kulturen jeden Transformationsprozess einzigartig machen. Der BTI misst und vergleicht alle zwei Jahre den Entwicklungsstand in 137 Transformationsländern auf der

Grundlage detaillierter Länderberichte. Als international vergleichender Index gibt er damit außen- und entwicklungspolitischen Akteuren, Wissenschaft und Medien sowie Reformern vor Ort wichtige Anhaltspunkte. Die Ausgabe 2020 fasst globale wie auch regionale Erfolge und Rückschläge auf dem Weg zu rechtsstaatlicher Demokratie und sozialpolitisch flankierter Marktwirtschaft in der Zeit zwischen 2017 und 2019 zusammen.

African Successes, Volume I Sebastian Edwards 2016-09-23 Studies of African economic development frequently focus on the daunting challenges the continent faces. From recurrent crises to ethnic conflicts and long-standing corruption, a raft of deep-rooted problems has led many to regard the continent as facing many hurdles to raise living standards. Yet Africa has made considerable progress in the past decade, with a GDP growth rate exceeding five percent in some regions. The African Successes series looks at recent improvements in living standards and other measures of development in many African countries with an eye toward identifying what shaped them and the extent to which lessons learned are transferable and can guide policy in other nations and at the international level. The first volume in the series, African Successes: Governments and Institutions considers the role governments and institutions have played in recent developments and identifies the factors that enable economists to predict the way institutions will function.

**Remote Warfare: Interdisciplinary Perspectives** Alasdair McKay 2021-02

Modern warfare is becoming increasingly defined by distance. Today, many Western and non-Western states have shied away from deploying large numbers of their own troops to battlefields. Instead, they have limited themselves to supporting the frontline fighting of local and regional actors against non-state armed forces through the provision of intelligence, training, equipment and airpower. This is remote warfare, the dominant method of military engagement now employed by many states. Despite the increasing prevalence of this distinct form of military engagement, it remains an understudied subject and considerable gaps exist in the academic understanding of it. Bringing together writers from various backgrounds, this edited volume offers a critical enquiry into the use of remote warfare.

*Implementing the Water-Energy-Food-Ecosystems Nexus and Achieving the Sustainable Development Goals* Cesar Carmona-Moreno 2021-09-15 The book's primary intention is to serve as a roadmap for professionals working in developing countries interested in the Nexus Water-Energy-Food-Ecosystems (WEFE) approach. The book shows a multi-disciplinary approach, showcasing the importance of the proper use of Nexus WEFE when implementing certain development programs in regions around the globe. It can be presented as a manual for an individual that either wishes to implement intervention projects following the NEXUS approach or students interested in cooperation and development. The book begins with a general explanation of the theoretical concepts and implementation processes of Nexus

WEFE and continues getting into case studies, explaining the importance of proper implementation and potential drawbacks and solutions to them. This book has a particular focus on the European Union cooperation policies when implementing such an approach in developing countries.

**Two Centuries of US Military Operations in Liberia** Niels Hahn 2020-03-31 This book reviews the history of the United States-Liberia relations from the early 1820s to 2015, with particular attention paid to the role of the US armed forces. Contrary to most literature on the genesis and development of Liberia, this book demonstrates how US military power has been the primary influence shaping Liberia's history. This includes the role played by the US military in the founding of Liberia, the protection of the country during the European formal colonial era, multiple covert operations in securing US-friendly administrations in Liberia, and direct military interventions when necessary to secure American interests in the region.

**The Wretched of the Earth** Frantz Fanon 2007-12-01 The sixtieth anniversary edition of Frantz Fanon's landmark text, now with a new introduction by Cornel West First published in 1961, and reissued in this sixtieth anniversary edition with a powerful new introduction by Cornel West, Frantz Fanon's *The Wretched of the Earth* is a masterful and timeless interrogation of race, colonialism, psychological trauma, and revolutionary struggle, and a continuing influence on movements from Black Lives Matter to decolonization. A landmark text for revolutionaries and activists, *The Wretched of the Earth* is an eternal touchstone for civil rights, anti-colonialism, psychiatric studies, and Black consciousness movements around the world. Alongside Cornel West's introduction, the book features critical essays by Jean-Paul Sartre and Homi K. Bhabha. This sixtieth anniversary edition of Fanon's most famous text stands proudly alongside such pillars of anti-colonialism and anti-racism as Edward Said's *Orientalism* and *The Autobiography of Malcolm X*.

*Come to the Oaks* Bryan Clark 1917-05 Winner of the 2017 Rainbow Award for BEST GAY HISTORICAL! In 1845, as America is drowning in its own racial conflict, in a time when forbidden love has to remain a secret, can two young men find love when one has everything to lose, and the other has nothing? For Tobias, a young African man, life has ended before it began. Snatched abruptly from his homeland and enslaved into the Antebellum South, grand homes and majestic oak trees meant little to him. Now he is considered the property of other men, but his spirit would not be broken. The awkward Benjamin Nathanael Lee lives a privileged life. His father

owns the largest tobacco plantation south of the Mason Dixon line. Ben wants little to do with the harsh realities of running a plantation—that is, until he meets Tobias, the one person that changes everything for him. Wealth, greed, and power brought them together. The same now threatens to separate them forever. The two men are on the verge of losing the one thing that matters: their love for one another. Against the odds, they steal off and embark on a journey to find freedom: the freedom to love one another and to live a life without the chains of slavery. Come to the Oaks is the tale of a forbidden romance—a love forged by two young men as they journey through a land that is tearing itself apart.

*Garbage Citizenship* Rosalind Fredericks 2018-10-16 Over the last twenty-five years, garbage infrastructure in Dakar, Senegal, has taken center stage in the struggles over government, the value of labor, and the dignity of the working poor. Through strikes and public dumping, Dakar's streets have been periodically inundated with household garbage as the city's trash collectors and ordinary residents protest urban austerity. Often drawing on discourses of Islamic piety, garbage activists have provided a powerful language to critique a neoliberal mode of governing-through-disposability and assert rights to fair labor. In *Garbage Citizenship* Rosalind Fredericks traces Dakar's volatile trash politics to recalibrate how we understand urban infrastructure by emphasizing its material, social, and affective elements. She shows how labor is a key component of infrastructural systems and how Dakar's residents use infrastructures as a vital tool for forging

collective identities and mobilizing political action. Fleshing out the materiality of trash and degraded labor, Fredericks illuminates the myriad ways waste can be a potent tool of urban control and rebellion.

*Multimedia Multicast on the Internet* Abderrahim Benslimane 2013-03-01 This book examines multicast technology and will be a key text for undergraduate engineering students and master students in networks and telecoms. However, it will be equally useful for a wide range of professionals in this research field. Multicast routing was introduced with the advent of multiparty applications (for example, videoconferencing on the Internet) and collaborative work (for example, distributed simulations). It is related to the concept of group communication, a technique introduced to reduce communication costs. The various problems of multicast routing on the Internet are examined in detail. They include: group membership management, quality of service, reliability, safety, scalability and transport. Throughout the text, several protocols are introduced in order to analyze, compare and cover the various aspects of multicast routing.

**Modelling, Simulation and Applications of Complex Systems** Mohd Hafiz Mohd 2021 This book discusses the latest progresses and developments on complex systems research and intends to give an exposure to prospective readers about the theoretical and practical aspects

of mathematical modelling, numerical simulation and agent-based modelling frameworks. The main purpose of this book is to emphasize a unified approach to complex systems analysis, which goes beyond to examine complicated phenomena of numerous real-life systems; this is done by investigating a huge number of components that interact with each other at different (microscopic and macroscopic) scales; new insights and emergent collective behaviours can evolve from the interactions between individual components and also with their environments. These tools and concepts permit us to better understand the patterns of various real-life systems and help us to comprehend the mechanisms behind which distinct factors shaping some complex systems phenomena being influenced. This book is published in conjunction with the International Workshop on Complex Systems Modelling & Simulation 2019 (CoSMoS 2019): IoT & Big Data Integration. This international event was held at the Universiti Sains Malaysia Main Campus, Penang, Malaysia, from 8 to 11 April 2019. This book appeals to readers interested in complex systems research and other related areas such as mathematical modelling, numerical simulation and agent-based modelling frameworks. .

### Rhythms of the Afro-Atlantic World

Ifeoma C Nwankwo 2010-11-22

"Collecting essays by fourteen expert contributors into a trans-oceanic celebration and critique, Mamadou Diouf and Ifeoma Kiddoe Nwankwo show how music, dance, and popular culture turn ways of remembering Africa into African ways of remembering. With a mix of Nuyorican, Cuban, Haitian, Kenyan, Senegalese, Trinidagonian, and Brazilian beats, Rhythms of the Afro-Atlantic World proves that the pleasures of poly-rhythm belong to

the realm of the discursive as well as the sonic and the kinesthetic." -- Joseph Roach, Sterling Professor of Theater, Yale University "As necessary as it is brilliant, Rhythms of the Afro-Atlantic World dances across, beyond, and within the Black Atlantic Diaspora with the aplomb and skill befitting its editors and contributors." ---Mark Anthony Neal, author of Soul Babies: Black Popular Culture and the Post-Soul Aesthetic Along with linked modes of religiosity, music and dance have long occupied a central position in the ways in which Atlantic peoples have enacted, made sense of, and responded to their encounters with each other. This unique collection of essays connects nations from across the Atlantic---Senegal, Kenya, Trinidad, Cuba, Brazil, and the United States, among others---highlighting contemporary popular, folkloric, and religious music and dance. By tracking the continuous reframing, revision, and erasure of aural, oral, and corporeal traces, the contributors to Rhythms of the Afro-Atlantic World collectively argue that music and dance are the living evidence of a constant (re)composition and (re)mixing of local sounds and gestures. Rhythms of the Afro-Atlantic World distinguishes itself as a collection focusing on the circulation of cultural forms across the Atlantic world, tracing the paths trod by a range of music and dance forms within, across, or beyond the variety of locales that constitute the Atlantic world. The editors and contributors do so, however, without assuming that these paths have been either always in line with national, regional, or continental boundaries or always transnational, transgressive, and perfectly hybrid/syncretic. This collection seeks to reorient the discourse on cultural forms moving in

the Atlantic world by being attentive to the specifics of the forms---their specific geneses, the specific uses to which they are put by their creators and consumers, and the specific ways in which they travel or churn in place. Mamadou Diouf is Leitner Family Professor of African Studies, Director of the Institute of African Studies, and Professor of History at Columbia University. Ifeoma Kiddoe Nwankwo is Associate Professor of English at Vanderbilt University. Jacket photograph by Elias Irizarry

George Padmore and Decolonization from Below L. James 2014-10-14 This book argues that the rising tide of anti-colonialism after the 1930s should be considered a turning point not just in harnessing a new mood or feeling of unity, but primarily as one that viewed empire, racism, and economic degradation as part of a system that fundamentally required the application of strategy to their destruction.

AIDS in Africa Joint United Nations Programme on HIV/AIDS. 2005 This report presents three hypothetical case studies for how the AIDS epidemic in Africa could evolve over the next 20 years based on policy decisions taken today by African leaders and the rest of the world; and considers the factors likely to drive the future responses of African countries and the international community. The scenarios draw on the age-old tradition of story-telling, rather than using data projections, to explore the wider context of the AIDS epidemic, reflecting the complexity of the subject matter.
